ARSAN KİMYA SANAYİ VE TİCARET A.Ş.

more hygienic life

Founded in 1999, our company, more than 20 years of experience, is honored to carry the status of being a trusted and sought-after leader. We continue to rise to the forefront within the sector as a result of steady growth and business development we have possessed since day one.

The Company's foundation is built on a belief in the importance of human capital based on a professional team of experts.

Our production facility, which is established on **12.877 m²**, contains latest technology equipment and with our expert staff we realize the production standards of the world's leading global companies, here in Turkey. Our aim is to become a brand which competes in the global arena and is followed due to its innovations and product diversity. With this strategy, we design and improve our products by blending cutting-edge technology with the highest quality raw materials.

In order to offer our consumers healthier and higher quality products we work with the world's leading producers of raw materials. All selected raw materials are microbiologically, chemically and physically in accordance with international standards and do not contain ingredients known to be harmful to human health and meet high hygienic standards.

In regards to high quality and hygiene standards, our product manufacturing and packaging lines use fully automated clean room technology in accordance with; ISO 9001, ISO 10002, ISO 14000, OHSAS 18001 and GMP international quality standards.

Today, our facility has an annual production capacity of **180 million** individual wet wipes. With this production power, we have created a difference under our Ultra Compact brand offering the market over **250** unique products. Our liquid filling line, with a **60 million** bottle annual production capacity, has diversified and strengthened our Ultra Compact brand of personal care and household cleaning product lines.

Presently, our company, having broad market access through a logistics network on 5 continents and in **129** countries, offers the global market a variety of high value products with the "More Hygienic Life" motto without any compromise to brand reliability.
